<sup>1</sup> Please notify the author of additions or corrections to this list ([dkeil@calpoly.edu](mailto:dkeil@calpoly.edu)).

Some of the native plants on this list were introduced to the preserve as a part of site management and restoration.

☼ — See **Wildflowers of San Luis Obispo, California**, second edition (2018) for photograph. Most are illustrated in the first edition as well; old names for some species in square brackets.

n — California native

i — exotic species, introduced to California, naturalized or waif.

v — documented by one or more specimens (Consortium of California Herbaria record; specimen in OBI; or collection that has not yet been accessioned). Some of these species are historical records and no longer occur at Sweet Springs.

o — observed during field surveys; no voucher specimen known
